Supporting Material

• TSI2690 or TSP2690 Managing Hitachi Ops Center Automator (2-day ILT/vILT)

This test is primarily designed for Hitachi Vantara customers who use, administer and operate Hitachi storage systems with Hitachi Ops Center. It is also available to Hitachi Vantara employees and partners. The test will validate that the successful candidate has knowledge of data center infrastructure management tasks automation using Hitachi Ops Center Automator. The test covers the user interface, creation and customization of tasks, REST API usage, and the Command Line Interface (CLI).

Audience: Hitachi Vantara Customer, Partner, and Employee Storage Administrators

Storage administrators should have knowledge of all storage-related operations from an end-user perspective. They are responsible for planning, allocating and managing storage, architecting storage layouts, planning connectivity, policy design, performance tuning, instituting disaster-recovery processes, cataloging maintenance and QA testing. Storage administrators should also have knowledge of storage systems, servers, operating systems, file systems, disk drives, fibre channel, host bus adapters, interconnect hardware, interoperability of storage networking and virtualization techniques.

Test Objectives	
Section 1	Automator overview
1.1	Describe Hitachi Ops Center Automator architecture and functionality.
1.2	List Hitachi Ops Center Automator key features.
1.3	Describe the various use cases for Hitachi Ops Center Automator.
Section 2	Automator GUI and administration
2.1	Describe the Hitachi Ops Center Automator GUI and the use of the tabs.
2.2	Describe the Hitachi Ops Center Automator workflows.
2.3	Describe the Hitachi Ops Center Automator user roles and their functions.
2.4	Describe how to administer Hitachi Ops Center Automator.
Section 3	Services and tasks management
3.1	Describe Hitachi Ops Center Automator service creation.
3.2	Describe Hitachi Ops Center Automator task management.
3.3	Describe how to identify and customize services in Hitachi Ops Center Automator.
3.4	Describe how to use and execute services in Hitachi Ops Center Automator.

* Depending on the location and course delivery format, this closed-book, proctored qualification test may also be offered and administered by the instructor at the conclusion of the supporting course.

The **Hitachi Vantara Learning Center** provides easy access to our instructor-led and online courses. You can find courses by product, by delivery format, or within learning paths by domain of expertise.
